

AGRICULTURAL EXHIBITS

The Woodstock Agricultural Society is proud to promote the many aspects of agriculture at our 2009 fair. In our Agricultural Building you will see many forms of agriculture. Maybe you would like to make your own butter in the dairy department, learn about making wine from grapes, learn about animals that live in the woods and how to protect the forest with good management. You can sample apples and maple products while you are looking at the alpacas or watching baby chicks hatch.

**** APPLES ** DAIRY ** CHRISTMAS TREES ****
